GIVING IMPACT

Supporting our communities through giving to valuable causes is at the heart of First Bank of Montana. Our Annual School Supply Giveaway is one of many programs we are grateful to provide to our rural areas. Our branches work with teachers and local vendors to provide supplies that are part of the essential school lists across our branch service territories. During the 2023 giveaway, a total of 1,554 students, grades kindergarten through 6th, received a cinch backpack with supplies for the upcoming school year.

2023 was the first year for FBMT's 12 Days of Christmas Food Drive. Each branch accepted food donations from employees and community members for 12 business days in December. First Bank of Montana then matched all the donations received, and all items were donated to the local food bank in each branch's community.

Food Bank receives community support through FE Miley Elementary and First Bank of Montana

By Zoe Merrill

Kindergarten teacher Samantha Weaver wrote, "The holiday time of year is upon us. Our elementary school is again partnering with our local Food Bank to put together Christmas gift boxes. Last year, our elementary school put together 11 Christmas gift boxes. The boxes consisted of the goodies needed for a holiday dinner. This year, our Food Bank is in need of products and baby items for their recipients. We are asking that each bring a specific item. Christmas gift boxes are picked up by the Big Food Bank on December 19th. Please, bring items starting November 19th through December 19th. We are asking for your continued support and helping our community give back to their neighbors."

A word from the teachers

A word from the students

"I liked all the information that was offered in this class. I just got my first job and I'm excited to start investing my money. Right now, I have most of my money in savings, but I want to make more interest so I want to invest it. I've learned a lot about budgeting, saving, and taxes. It has been very helpful."

"In this course, I greatly appreciated the real-world examples that the course provided. I do not have as much access to financial education as I wish I did, however, the situations that EVERFI includes are very easy to understand. The course explains in detail things that I should know about budgeting and making smart consumer choices."

~ Malia

"The fellowship of my coworkers has improved my life in many ways, and I am so glad to be part of the 1st bank family. I have never felt so welcomed and included in a job, and I really appreciate all the efforts made to make sure I am successful."

~ Amy

"I have been with the bank longer than any job I have held in the past for one simple reason...I LOVE MY JOB! I love that I get to interact daily with the people in my community and help build a rapport not only with them personally but also for the bank. I love that I work with amazing people that have the same goals that I do in that our customers are our most important investment and helping them to feel financially secure and to help them achieve financial freedom is a win-win for both sides! I love that my supervisor is always helping me to find ways to improve my performance and is very available to answer any questions I have. I love our benefits package that not only helps with my health needs, but also my financial future. I love working with people from different branches throughout the year and then getting to have that face-to-face time in October at our training in Fort Benton and finally I love that I can walk to work on a daily basis as I only live a few blocks away so come rain, snow, sleet, or hail, I will be there!"

~ Heather

"I have been in banking for 37 years and when we made the transition a few weeks ago to First Bank of Montana we here were all treated with respect by all of you that came to help even though we were all a little lost and overwhelmed. Wow what a welcoming party. Thank you!"

~ Diane

"I am proud to work for a bank that contributes to the community as often as we do."

~ Shelby
